President's Corner

HELLO EVERYONE,

Be sure to attend our August 5 outdoor meeting. We are having complementary hot dogs and have invited Don Diego Ski Club to join us. There will be lots of fun for everyone.

We are getting our ski trips lined up for 2015 and have set up our fly away trip with the North Island Snowdrifters February 25 -

March 4 at Keystone. The trip is shaping up to be a good one with a bed and breakfast hotel and a host of amenities. Read the ski article. Since the fly away trip is set, the second Mammoth trip will be March 8-13 with Don Diego Ski Club. This way we can get a bus ride.

Participate in the great events during July and August and don't be afraid to volunteer.

Thanks, Joe

THIS AUGUST TRIP IS FULL... BUT WE ARE TAKING A WAIT LIST – AND IT IS ALMOST FULL AS WELL.

FREE tour of The **National Weather Service (NWS)**, once known as the **Weather Bureau**... it is a part of the National Oceanic and Atmospheric Administration (NOAA) of the United States government. The NWS is tasked with providing forecasts, public warnings, and other products to organizations and the public for the purposes of protection, safety, and general information. This is done through a collection of national and regional centers, and 122 local weather forecast offices. As the NWS is a government agency, most of its products are in the public domain and available free of charge.

The National Weather Service uses local branches, known as Weather Forecast Offices, to issue products specific to those areas. Some of the products that are only issued by the WFOs are severe thunderstorm and tornado warnings, flood, flash flood, and winter weather watches and warnings, some aviation products, and local forecast grids.
